Despre companie

Furniture Vision, o idee care a pornit de la pasiunea pentru estetica si tehnologie a doi vizionari, tata si fiu, idee care a prins contur in domeniul mobilierului si amenajarii interioare din 2007. De atunci si pana in prezent viziunea celor doi a mers mai departe si s-a dezvoltat continuu. In acest moment, Furniture Vision are o fabrica cu tehnologie care este mereu upgradata conform cerintelor pietei si un atelier de creatie pe masura.

Misiunea si viziunea noastra

Furniture Vision ofera clientilor o echipa dedicata, formata din manageri profesioniști, arhitecti si designeri care servesc ca coordonatori pe tot parcursul procesului de planificare si management al proiectului. Fie ca este vorba de scopuri rezidentiale sau comerciale(cum ar fi magazine, clinici medicale, saloane de infrumusetare, spa-uri, mobilier pentru hoteluri sau cladiri de birouri), echipa noastra colaboreaza strans cu clientii pentru a identifica solutiile optime.

Fiecare proiect este tratat cu cea mai mare importanta, echipa noastra mentinand o comunicare constanta cu clientii pentru a asigura o experienta personalizata, care acorda prioritate aranjamentului, functionalitatii operationale, eficientei productiei si livrarii la timp, toate in timp ce urmaresc sa minimizeze costurile fara a compromite calitatea.

Managerii nostri de proiect supravegheaza cu meticulozitate fiecare aspect al proiectului, de la proiectarea 3D si selectia materialelor pana la estimarea costurilor si programarea, asigurand o executie fara intreruperi.

Milestones

2013

A fost fondata
Furniture Vision

2015

am executat cu succes unul
dintre cele mai ambitioase
proiecte Corian din Europa -
un zid de 100 de metri
lungime si 3,5 metri inaltime
pentru Therme, cel mai mare
spa din Europa

2018

anul in care am asistat
la cea mai mare
modernizare tehnologica,
alaturi de extinderea noastra
intr-o hala de productie mai
mare

2025

cel mai de succes an din istoria
noastra pana in prezent, marcat
de rezultate financiare solide, o
dezvoltare accelerata si o
crestere semnificativa a
complexitatii
si numarului de proiecte.

Viitor
